

DONDOLINO

Vertical Standing Frame

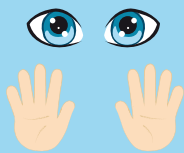

ING - cod. 22824 - 06-11-17

 design and quality
MADE IN ITALY since 1980

by **ORMESA**

Dondolino makes the **active inclusion** of the child in his surrounding environment easier when used in the standard quality of life

the experience of manual activities guided by vision improves manipulative activities and the eye-hand coordination

anti-gravity muscle practice, which is the recovery of a partial anti-gravity setting of posture

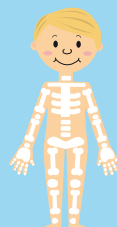

facilitation of the circulatory functions thanks to the orthostatic position that helps a more effective bloodstream

facilitation of peristalsis thanks to the orthostatic position that helps digestion and the bowel function

increase of the respiratory status due to the increase of ventilation and reduction of the obstructive diseases

increase in bone density in such parts as spine, pelvis, lower limbs, feet

It **supports** without forcing
Colours, shape and design are
attractive as a game
