# mygo Seat

# Explore the possibilities.

With its bright colors and clinical focus, **Mygo** has always been about fulfilling the postural and emotional needs of young children and their families. **Mygo** is able to help a broad range of kids to carry out everyday functions at home, in the classroom or even out and about.

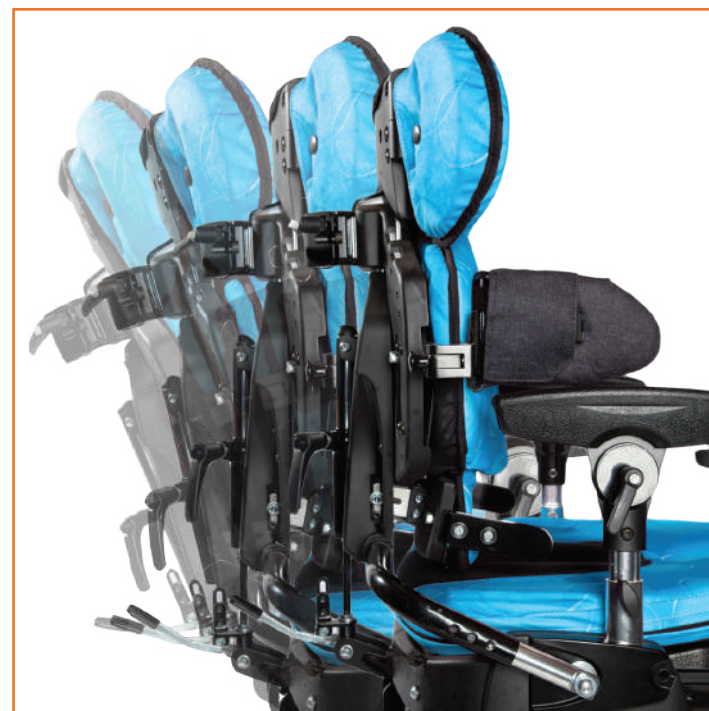

## Versatility

The adjustability of **Mygo** seating system provides clinicians with the tools to maximize pelvic stability, trunk and head alignment, and leg and foot positioning. **Mygo Seating** is used with a hi-low chassis for everyday activities.

## Durability

With a reinforced backrest with Dynamic option, seat base, and pelvic harness the **Mygo Seat** caters to kids with strong extensor patterns. Allen key screws are supplied as standard with anti-vibration washers to prevent loosening through continued use.

## Postural Support

The **Mygo Seating** System allows therapists to optimize the postural care of children with moderate to complex special needs.

## Trunk & Head Alignment

The contoured shoulder section extends the height of the backrest and facilitates shoulder protraction for better trunk alignment.

## Pelvic Stability

The innovative Pelvic Cradle (Patent Pending) which is available for the Size 2 **Mygo** wraps around the buttocks and posterior of the pelvis for optimum proximal positioning.

## Leg & Foot Positioning

The upper leg supports can be adjusted independently and set up to accommodate leg length discrepancy, adduction, up to 30° abduction, or up to 10° windsweeping.
