

# Caribou<sup>™</sup>

**The Caribou is a standing frame that supports a prone or supine standing position. The Caribou is available in 4 sizes and suitable for children and young adults.**

PU

FRAME

0° - 87°

max 100 kg

510 - 570 mm

750 - 1110 mm

### Easy transfer

The Caribou tilts from vertical to horizontal. The horizontal position makes it easier for the carer and less stressful for the user to be placed into position

### Compatible accessories

The Caribou accessories are compatible with all sizes, and are easily fitted and adjusted on the Caribou frame

### Easy tilt

The Caribou is supplied with an easy tilt mechanism, which allows the carer to have both hands free

**Anatomic design and soft mouldable PU for optimum comfort**
