

Toucan[™]

The Toucan standing frame comes with soft curves and smart colours. It is designed to support the user in the upright and prone position. The Toucan is available in 5 sizes.

PU

FRAME

0° - 30°

max 70 kg

560 - 700 mm

750 - 1110 mm

Angle adjustable centre bar

The Toucan has easy and smooth angle adjustment making it possible to obtain the optimum standing position

The Toucan is designed with slots in the centre bar for mounting accessories

Handle with lock

The handle for angling the centre bar is equipped with a security lock. Pull out the lock whilst turning the handle to change the angle

Wheels with locks

All four wheels are equipped with locks securing the Toucan for stability. The wheels are very easy to manoeuvre making it easy to move the Toucan around
